Management report

Elama Kindlustus AS (hereinafter referred to in this report as Elama) is an insurance company engaged in non-life insurance in Estonia since 1992.

At the beginning of 2025, Elama's range of insurance services included motor third party liability insurance, motor casco insurance, travel insurance, health insurance, carrier's and freight forwarder's liability insurance, cargo insurance and, to a lesser extent, financial loss and machinery insurance.

Elama's general strategy is to offer insurance services through all sales channels on the market. We make insurance simple, clear and affordable. We offer a reliable and customer-friendly insurance service that is modern and flexible and accessible to everyone.

In the first quarter of 2025, the company continued to actively expand the provision of insurance services. An innovative and automated product solution for home insurance was introduced, which was integrated with most insurance intermediaries operating in the market. In addition, home insurance can also be purchased through a simple and innovative purchase process on the website, in which one can flexibly change the insurance cover to suit the needs. Along with the launch of home insurance, the sales processes of traffic and motor casco insurance on the online channel were also improved, where the choice of cover that corresponds to the insurance interest is now even more flexible and easier to understand.

The Elama team strengthened in the first quarter with the best specialists on the market and continues to grow. At the beginning of the year, a carefully selected claims handling manager started work. At the end of the quarter, a claims handling lawyer joined the team and a partner relationship manager was added to the sales area to support the growing sales volumes. At the end of the quarter, Elama's team had 29 employees.

The company's internal information exchange was transferred to the innovative SharePoint solution, which made the processes of preparing and approving documents faster and more transparent. At the same time, information security measures related to user rights and access to various data were also improved.

In claims handling, a network of cooperation partners was created to solve the needs of customers in the best possible way, where cooperation with 10 cooperation partners had been concluded by the end of the first quarter. Work on expanding the network of cooperation partners will continue in the future.

The first steps were taken to promote a new international business direction and the application for cross-border activity was submitted within the framework of the first projects.

Insurance business

In the first quarter of 2025, Elama collected insurance premiums in the amount of 2,257 thousand euros, thus increasing the volume by 18.5% compared to 1,904 thousand euros in the corresponding period of 2024. The largest increase in volumes was achieved from motor casco insurance, which is a new product in Elama's portfolio compared to the previous period. The share of motor third party liability insurance in the portfolio has decreased as planned.

Motor third party liability insurance accounted for 1,314 thousand euros, motor casco insurance for 842 thousand euros, travel insurance for 51 thousand euros and carrier liability for 43 thousand euros. Other insurance contracts were concluded in the amount of 7 thousand euros.

Losses in the first quarter of 2025 totalled 1,225 thousand euros, which is 233 thousand euros less than in the same period last year. The gross loss ratio for the first quarter was 45.5%, which is a significantly better indicator than in the comparable period of the previous year (71.2%).

In the first quarter of 2025, 623 new loss events were registered, of which 75% were traffic accidents, 23% were comprehensive insurance claims and other losses accounted for less than 2%. In the same period of 2024, 601 new loss events were registered, 99% of which were traffic accidents.

Customer satisfaction remains at a good level. 22% responded to the post-claims handling survey sent to customers with an average score of 4.5 (5-point system).

A total of 13 insurance companies and the Motor Insurance Fund operated on the non-life insurance market. The market volume of non-life insurance in the first 3 months of 2025 was 149 million euros, which is 0.1% more than in the same period in 2024. The small growth is mainly due to the decrease in the premium volumes of motor third party liability insurance and motor casco insurance. Elama's market share in the first 3 months of 2025 was 1.6%. In the same period in 2024, the market share was 1.2%.

Investment activities

In the first quarter of 2025, Elama acquired bonds from various issuers as new financial investments. This year's goal is to diversify the investment portfolio and diversify risks. The volume of Elama financial investments as of 31.03.2025 was 12,251 thousand euros (as of 31.12.2024: 12,626 thousand euros).

Assets and liabilities from insurance contracts and equity

As at the end of the quarter, Elama's balance sheet total was 20,658 thousand euros. As at the end of 2024, it was 21,320 thousand euros. Liabilities from insurance activities decreased by 915 thousand euros in the first quarter, while assets from reinsurance contracts decreased by 312 thousand euros. Changes in liabilities are primarily due to changes in the structure of the insurance portfolio and indemnities paid.

Elama equity as of 31.03.2025 was 6,134 thousand euros (31.12.2024: 6,005 thousand euros).

Financial results

Elama earned a profit of 130 thousand euros in the first quarter (102 thousand euros in the first quarter of 2024). Profit increased primarily due to improved technical result and higher income from investment activities.

Notes to the interim accounts

Annex 1. Accounting principles used in the preparation of the abridged interim report

Elama Kindlustus AS (hereinafter also Elama) is a company registered in Estonia on 29.10.1996 (registry code: 10089395), with its registered office at Liivalaia 45, Tallinn (Estonia). Elama offers non-life insurance services in Estonia, incl. compulsory motor third party liability insurance.

In the opinion of the Management Board of Elama, the interim report accurately and fairly reflects the financial results and financial position of Elama.

Declaration of Conformity

The interim financial statements of Elama have been prepared in accordance with the requirements of the International Accounting Standard IAS 34 "Interim Reporting" as established in the European Union and include condensed financial statements and explanatory notes to the selection.

Basics of compilation

The accounting currency of Elama is the euro and the figures of the report are presented in euros without a decimal place (unless otherwise indicated).

Elama has adopted IFRS 17 "Insurance Contracts" and IFRS 9 "Financial Instruments" standards. The bases for the preparation of the report, including the standards used and their interpretations, as well as the accounting principles of Elama have not changed compared to the last published annual report.

In accordance with IFRS 16, Elama recognises the lease asset, property, plant and equipment and the corresponding lease liabilities in the other liabilities section of the statement of financial position.

Events after the reporting date

There were no significant circumstances affecting the valuation of assets and liabilities that would have occurred between the balance sheet date of 31.03.2025 and the date of preparation of the report.

Annex 2. Accounting Assessments and Judgments

In the preparation of the reports, a number of accounting estimates and judgments have been used, which affect the assets and liabilities recorded in the report and the notes to the disclosed potential assets and liabilities. Although these decisions have been made to the best of the management's knowledge, they may not coincide with the actual result later.

Annex 3. Revenue from insurance contracts

	3 months 2025	3 months 2024
Motor third party liability insurance	1 327 324	1 517 228
Motor casco Insurance	438 564	0
Travel insurance	31 116	22 743
Carrier liability insurance	22 439	20 367
Other lines of business	2 703	12

Total income from insurance contracts	1 822 146	1 560 350
--	------------------	------------------

Annex 4. Insurance service expenses

	3 months 2025	3 months 2024
Total damages and handling costs, incl.	827 481	1 111 112
